MSRO Observer Level Requested During Observation (check one)

Guest Observer—Online— I want to be online during observations, as a viewer only.

Guest Observer—Offline— I do not want to be online during observation. Please contact me when observation has been obtained.

Observer in Training — I would like to be hands-on during the observations, with a staff member accompanying me.

Full Observer — I will complete required training and demonstrate proficiency with the observatory, so that I may complete observations without real-time supervision.

List the objects and describe your observation request as thoroughly as possible. Give details such as when the observation should be made (or whether it is not time sensitive, such as "I just want a picture of this galaxy," etc.), what object(s) you would like to observe, the goals of your observation, approximate amount of telescope time needed, and if any special filters or techniques that need to be used.

Objects:

Details:

If your observation is time sensitive, please also provide the following info (Eastern Time, 24-hour clock):

Date (MON-DD-YYYY):

TIME(HH:MM:SS):

Additional Details (if needed):

There is no charge to use this observatory. However, if you would like to make a small donation, please contact the Director via email for details (MSRO@raclub.org).

MSRO Staff/Commission Comments:

Approved＿＿＿＿   **Approved pending following recommendations**＿＿＿＿   **Denied**＿＿＿＿

Recommendations:

Contact **MSRO Director Myron Wasiuta** with questions about scheduling your observation request at MSRO@raclub.org. For technical help with your observations or analysis of your data, please email MSRO@raclub.org and astronomer **Lauren Lennon** will contact you to assist.
